

Liability Release

Welding is not necessarily a dangerous occupation, but it does have both risks and dangers associated with it. These dangers and risks include but are not limited to:

- sparks and/or dust in eyes
- minor/major burns from hot steel or welding sparks
- cuts, scratches, abrasions, etc.
- staining and/or destruction of clothing from sparks, heat, acids, paints, etc.
- muscle injuries
- traumatic injury due to inherent dangers of working in a weld shop
- possible death from improper handling of machines or faulty machinery

I the undersigned hereby acknowledge that I understand the dangers and risks inherent to welding and waive all right to lawsuits or other legal or punitive action against General Air Service & Supply its owners, employees or other associated persons. By signing I take full responsibility for my own actions and any accidental injury that I may experience in the course of my relationship with General Air Service & Supply.

Release of Liability: As part of the consideration, in addition to the application fee paid to General Air Service & Supply for the course for which I have registered, I hereby release General Air Service & Supply, its employees, associates, subcontractors as well as any person(s) or entity(s) on whose property such course may be given, from any and all liability for personal injury or property damage that I may suffer or sustain due to negligence, or otherwise, in connection with any such course, whether by ingress or egress, attendance or otherwise.

I have read and agree to the above conditions and Release of Liability conditions.
